

# Asbestos related lung cancers conference

## When and where

London  
18 September 2009

## Event information

WF181208

**APIL is delighted to bring together a line-up of eminent medical and legal experts at this six hour specialist conference.**

The day will update you on all the important legal developments over the last twelve months, with medical advice to help you distinguish viable lung cancer claims, absent asbestosis.

Hear from **the** acknowledged medical expert in the field, Dr Robin Rudd, on the medical intricacies of such cases, with advice from Peter Deary on the importance of exposure dose calculation methodology.

Allan Gore QC, who was involved in the groundbreaking case of Shortel, will then discuss the legal principles underpinning these claims.

With a workshop addressing whether or not solicitors care enough about their clients, the day promises to be interactive and informative. Can you really afford to miss out?
